It Can
Be Done…

But It's
Not Pretty

cc image from Phil Manker on flickr

What are the roadblocks?

- "Did This" = verb + result
- does result type vary with verb?
- does "did this" include state data?
- is there a separate concept of "is doing this"?
- This = experience definition → varies w/ verb + experience type
- where do time stamps come into play - start time, and time, are started + finished verbs?
- He vs I did this is very subtle, just another one who is asserting
