

The Learning Registry Project

Primary Funding from
US Dept of Education
US Dept of Defense

Overview

The Learning Registry
+ enables us to share what we
know.

**Learning resources aligned
+ to the Common Core are
scarce.**

Many resources are aligned to state standards, but not yet to the Common Core (not to mention other emerging multi-state curricular standards).

+ Many State departments are
investing in aligning web-
based digital content to
Common Core Standards.

**Each state and vendor knows
+ a little, but together we know
much more.**

**To find useful resources, we
+ have to share what we know
and we have use what others
share to us.**

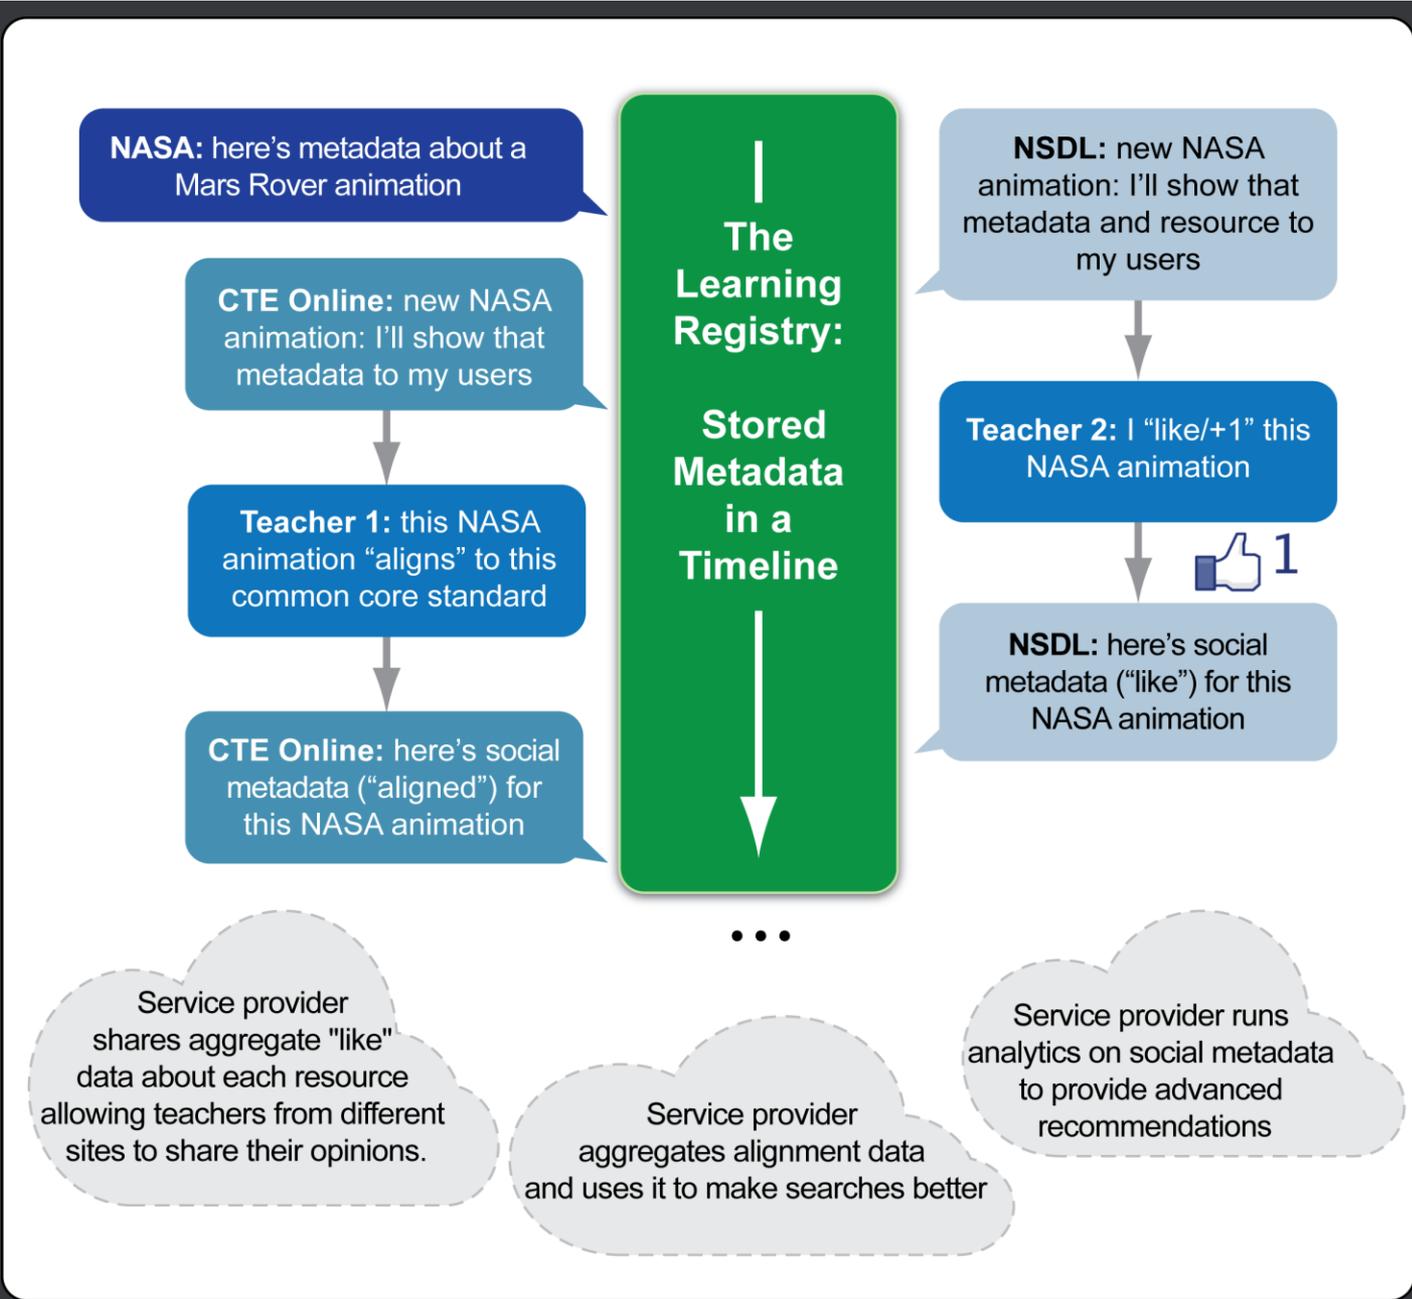

**Learning Registry allows this
+ by enabling computer systems
to share with each other.**

Statements such as:

**“This Khan academy video is
+ aligned to Math 8.2.1”**

**“This Pearson content pack is
aligned to these 15 Common Core
standards:”**
