JOINT KNOWLEDGE ONLINE

JKO/ADL Mobile

Joint Knowledge Online (JKO) / Advanced Distributed Learning (ADL) Mobile is a collaborative effort to deliver a free mobile Application (App) that provides access to unclassified, releasable, mobile training and performance aiding content using Apple and Android mobile phones and tablets. The JKO Mobile App is available in Apple and Android App stores, for use on Apple and Android tablets and phones.

The JKO/ADL mobile capability is enabled by:

- JKO Mobile App used to download mobile content.
- Mobile Learning Suite (m-LS) that manages all mobile content, mobile user information, and synchronization of information between the JKO Mobile App and the m-LS.

How to Get Started:

1. **Obtain your Personal Identification Number (PIN).** Your PIN controls access to the JKO Mobile App and enables course completions to be sent to your training history on the JKO desktop system.
2. **Download and Install the JKO Mobile App** from your Apple or Android app store, type in your PIN and download available courses from the App's "Download" section.
3. **Complete training courses on your mobile device.** Course completion records are sent to the m-LS server upon a successfully "Sync" with your device ("Sync" requires connection via Wi-Fi or a mobile data plan). Your mobile course completion records are stored and available for transcript reporting from the m-LS server.

The JKO Mobile App can be downloaded to an Apple iPad, iPod, and iPhone as well as an Android tablet and phone.

With JKO Mobile you can:

- **Get the latest JKO news**
- **Complete courses**
- **Download job aids**

JKO Mobile is a training capability delivered by the JKO/ADL Mobile Pilot Program - a collaboration between JKO and ADL Initiative's Partnership Labs to access training and education using mobile devices.

JKO

Joint Knowledge Online is the U.S. Department of Defence (DoD) unique and authoritative distributed learning capability that delivers global, 24/7 access to Web-based, immersive, interactive training and joint learning resources. JKO is partnered with the Poland Advanced Distributed Learning Partnership Lab for JKO Mobile.

ADL PARTNERSHIP LAB NETWORK

Partnership Labs work within their country and with other Partnership Labs and ADL to further ADL's vision and to develop and disseminate common guidelines, lessons learned, and tutorials for ADL and to share resources among all stakeholders. ADL Partnership Labs are participating in the JKO/ADL Mobile initiative to enhance the ability to share coalition training using mobile devices.

The Poland ADL Partnership Laboratory (Poland ADL Partnership Lab), formed in 2012, is part of the National Defence University and is located in Warsaw (district: Rembertow), Poland. The Partnership lab is a collaborative project between ADL and the Polish Ministry of National Defence. The National Defence University (NDU) directs the work of the Poland ADL Partnership Lab.
